

Outlaw Child Sex-change Surgery in Texas

Save children. Protect religious liberty.

- Problem:**
1. Doctors perform sex-change surgeries on children in Texas.
 2. Doctors chemically castrate children as young as 8 years old, to suppress puberty and prepare children for sex-change surgery.
 3. Courts force non-custodial parents to pay for transgender therapy and sexual mutilation of their own children. If parents object, the courts remove parental rights and jail them. Schools are going along with it.
-

Example:

James, my son, a normal seven-year-old boy. Courts enjoined me from taking him out as a boy, from teaching him that he is a boy, from giving him religious teachings on sexuality and gender.

Luna, the fake female gender identity foisted upon James by his mother and the courts, since he was 3 years old. His mother registered him in Coppell schools as a fake girl. They call this perverse abuse of a child "social transitioning."

James has no legal protection.

I am accused of abuse for saying James is a boy.

Solution:

We need a law to take discretion form the courts:

1. Outlaw sex-change surgeries for children under age 18.
 2. Outlaw chemical castration by puberty suppression for psychological treatment, while still allowing it for medical treatment.
 3. Restrict courts from removing parental rights.
 - a. No loss of rights for affirming the biological sex of a child.
 - b. Never force parents to pay for transgender therapy of any kind.
 - c. Never find abuse for affirming a child's biological sex
-

More Info

Go to SaveJames.com for the latest information on James' case. Help him.

Final trial is 15-17 October 2019, 255th Court, Dallas TX.

If James loses, the courts will do this to thousands of kids.
